Tips

Installation: To avoid any dangerous situations and operating faults, do not place anything on the TV set and leave a space of at least 5 cm around the appliance.

Poor picture quality: The proximity of mountains or high buildings may be responsible for ghost pictures, echoes or shadows. If this is the case, change the orientation of the antenna.

Have you remembered to connect the aerial socket ?

Standby: To save energy and preserve optimum picture quality (by demagnetising the tube), you are advised to switch off your TV set using the on/off button at the front of the TV set.

Recycling directive: To minimise harm to the environment, the batteries supplied with the appliance do not contain mercury or nickel cadmium. When disposing of batteries, if possible use recycling means available to you (contact your dealer).

Your TV set makes use of reusable and recyclable materials. To minimise harm to the environment, specialist companies will recover used TV sets for dismantling and collection of reusable materials.

In the event of a breakdown, under no circumstances attempt to repair the TV set yourself, contact your dealer.
